**DETAILED ACTION** 

In response to the amendment filed 08/22/2003, claims 1-23 have been cancelled; newly added claims 24-44 are pending.

**Election** 

This application contains claims directed to the following patentably distinct species of the claimed invention:

- A method for providing end-user support without the use of specific frames (claims 24-30)
- b. A method for providing end-user support with the use of at least a content and an automated support frame (claims 31-44)

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the ments to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, there are no generic claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of Application/Control Number: 09/944,676

under 35 U.S.C. 103(a) of the other invention.
